

A profile of people with disability in Australia

The United Nations Convention on the Rights of Persons with Disabilities aims to enhance opportunities for people with disability to participate in all aspects of social and economic life. While there have been many improvements in the lives of people with disability, significant barriers still remain.

The results of the 2015 Survey of Disability, Ageing and Carers provide a profile of people with disability in Australia.

There were **4.3 million** Australians with disability in **2015**

The likelihood of living with disability increases with age, **2 in 5** people with disability were **65 years or older**

Almost **1/3** of people with **disability** had a profound or severe disability

Around **3 in 5** people with disability* needed assistance with at least one activity of daily life

Around **half** of people with disability used **aids or equipment** to help with their disability

Around **1 in 5** people with disability said their main long-term health condition was a mental or behavioural disorder

People with disability* aged **15-24 years** were **10 times** more likely to report the experience of discrimination than those aged **65 years and over**

People with disability

People with no reported disability

53% of people with **disability** participated in the workforce**, compared with **83%** of people with **no reported disability**

\$465

\$950

The weekly median income** of people with **disability** was **\$465**, which was less than half of those with **no reported disability**

*Living in households

**Labour force and income figures are for persons aged between 15 and 64 living in households
